

EXHIBIT # 8
DATE Jan 25 12
242

Dear Committee member,

My name is Robert Kolar; I am a businessman, and citizen residing in Helena, Montana. I come before you today to ask your vote

Vote YES, FOR HB242, with this amendment, to make the school elections part of the primary in June, instead of the way the bill is currently written

I have previously emailed you at your personal email address and need to add the June part that was omitted in my previous communications. Either way one election is preferable to the present system regardless of when it takes place.

Why should schools have their own private election every year? I often times forget to go vote at this election, as life gets busy and it is not published as much as most elections. It seems to me that the only people that vote in this election are people with vested interests, and then to top it off, I understand they count the votes themselves.

Is this absurd or what?

Vote Yes on HB242,

Please make this a part of the record.

Your Friend

Bob Kolar
